

Title: Development of an Information and Communication Website for the Mykolaiv City Council

Description

The Mykolaiv City Council is committed to upholding the principles of transparency, openness, and accountability in its operations.

The current site has not been updated in nine years. It looks outdated, difficult to navigate, and does not provide information to residents in a clear or accessible way. It also does not meet accessibility standards for people with visual impairments and is not user adapted for mobile devices.

The Mykolaiv City Council is launching the second stage of its web portal renewal project. The first stage — UX/UI design — has been completed. All design prototypes, graphic assets, style guides, and user interface specifications have been developed and will be provided to the selected contractor.

Objective

The European Union Anti-Corruption Initiative (EUACI) is seeking a contractor to provide the full development and deployment of the city's new official website based on the approved UX/UI designs.

Scope of Work

1. Technical Implementation
2. Compliance
3. Performance and Hosting
4. Testing and Quality Assurance
5. Training and Handover
7. Deployment
8. Content Migration
9. SEO Migration and Optimization Requirements
10. Warranty and Technical Support

Qualifications and Competence

It is envisaged that the assignment will be implemented by a team of experts familiar with the context and experienced with similar assignments.

Timing and Budget

The tentative start date is June 2026. All activities envisaged under this contract shall be completed with a total duration of up to 9 months (excluding the technical support period after deployment).

The maximum budget for the assignment all included may not exceed EUR 68,800 (approx. 513,936 DKK).

Deadline for application

20-05-2026 at 14:00 Danish time
