IT Expert

The EU Anti-Corruption Initiative in Ukraine (EUACI)

The EUACI is looking for an IT expert to support our work on building the IT capacity of anti-corruption institutions and other EUACI partners.

At the EUACI, we are making a difference in preventing and fighting corruption in Ukraine. We are working with the main anti-corruption stakeholders. We work with the government and the parliament, the anti-corruption institutions, the Integrity Cities and civil society and media. We provide strategic capacity building, institutional and legislative support. We are bringing the best international anti-corruption expertise to Ukraine.

If you comply with the conditions below and want to be part of a workplace with dedicated and hardworking colleagues who want to do their part to create an even better society with less corruption then send us your application to kyivprogramunit@um.dk with the copy for serkon@um.dk before close of business on **21 August 2026**.

The EUACI

The EUACI is an anti-corruption program funded by the EU, UK International Development, and co-financed and implemented by the Government of Denmark. The programme is aimed at supporting Ukraine in its efforts to reduce corruption at the national and local level through the empowerment of citizens, civil society and state institutions.

The EUACI has four intervention areas, namely:

- Support to independent state institutions fighting and preventing corruption
- Mitigate corruption risks at the level of sectors
- Support cities in enhancing integrity
- Support civil society and media in preventing and fighting corruption.

With the expansion of work, there is a need for an IT Expert. The IT Expert will support the EUACI's IT capacity building initiatives by identifying partners' IT needs, developing technical requirements, supporting procurement and contract management, monitoring IT projects, and providing technical expertise and IT support to the EUACI staff.

The position

Title: IT Expert

Place of service: The EUACI office in Kyiv

Contract: We offer an employment contract for a full-time position with the Embassy of Denmark. All staff will have to pass a security check.

Conditions: A salary according to qualifications and embassy staff policy and a benefit package as for embassy staff, including performance bonus, health insurance and five weeks of paid vacation. A modern and comfortable office in the Kyiv central area.

Team: The IT Expert is a part of the Team on Support to independent state institutions fighting and preventing corruption, and will work under supervision of the Senior EUACI's IT Expert and Team Leader of the Component.

Area of Responsibility

The area of responsibility includes, but is not limited to, the points below:

- Support and manage the EUACI's IT capacity building of anti-corruption agencies and other EUACI partners and identify together with them the IT capacity building needs.
- Provide support in the timely identification and screening of programme consultants/contractors for the needed support, as well as in the creation of Terms of Reference and support in processing of contracts.
- Develop technical specifications/Terms of Reference (including hardware, software, training, maintenance and support and implementation service) in compliance with relevant policies and procedures.
- Review/validate technical specifications/Terms of Reference prepared by anti-corruption agencies for completeness, accuracy and compliance with relevant policies, procedures and standards.
- Monitor the implementation of IT projects, facilitate processes and coordination and suggest improvements.
- Manage contracts of external IT experts and other service providers.
- Serve as a technical expert during meetings with partners on IT issues.
- Ensure timely preparation and submission of all reporting information, reports and documentation.
- Act as the in-house EUACI IT expert and provide IT support to all EUACI staff.
- Assist with other technical duties as agreed with the EUACI's Senior IT Expert and the EUACI Management.

Requested Profile/Qualifications

- Bachelor's degree in information technology, telecommunications, computer science, information systems, or another relevant technical field.
- At least 5 years of professional working experience in information technology, telecommunication, or other related technical field.
- Experience in designing technical specifications/terms of reference for supply and deployment of IT solutions in the public sector will be an asset.
- Demonstrated ability to prepare high-quality technical documentation, including IT assessments, recommendations, technical specifications, Terms of Reference, and progress reports.
- Experience with IT projects funded by international donors and familiarity with donor-funded procurement, contract management, and reporting procedures would be a strong advantage.
- Excellent interpersonal skills and the ability to work constructively with others within and outside the team.
- Strong organisational and analytical skills, with the ability to manage multiple assignments, work under pressure, and meet tight deadlines.
- Fluency in Ukrainian and excellent English language skills is required.
- High standards of ethics, integrity, professionalism, and credibility.

How to apply

Interested candidates should submit their CV and short motivation letter to kyivprogramunit@um.dk and serkon@um.dk before close of business on **21 August 2026**. With the subject line "*Application for IT Expert*".
